

Guidelines for phase II hospital skills programme for pre-intern medical officers

1. Programme coordinator will appoint one pre intern doctor as the leader for the group of the respective hospital.
2. Programme coordinator will provide details of the GMOA coordinator/Director of the respective hospital to leader of the pre intern group.
3. Leader of the group should contact and get the directions from GMOA branch union coordinator or from hospital Director.
4. Programme coordinator will send the contact number of the group leader to the rest of the group members
5. Skills programme will be conducted from 8.00am to 4.00pm unless otherwise specified by the respective consultants.
6. All pre intern doctors should give a special attention on their dress code.
7. All pre intern doctors should bring the letters which addressed by the Director General Health Services to the director of the hospital/consultants of the hospitals as well as the log book
8. All pre intern doctors should maintain a good discipline through out the period.
9. We hope all pre intern doctors get the maximum outcome from this programme.
10. Prior to the programme please visit - <http://shri.lk/skills-on-essential-procedures/>
And read the log book skills and get familiar with the skills.
11. Log book which will provide information will give you a rough guideline on how to do skills but the procedures will be differ from consultant to the consultant according to their expertise.
12. Should send the duly filled log book via mail and via post within 1 week after completion of the 6 day skills programme

We wish you all the best and good luck for the programme
